Brain Injury Awareness Month Communication Toolkit

March is Brain Injury Awareness Month. Please feel free use this communication toolkit to raise awareness of Brain Injury Awareness Month as well as the accomplishments of the Traumatic Brain Injury Model System (TBIMS) centers, the TBIMS National Database, and the Model Systems Knowledge Translation Center's (MSKTC) consumer resources for people living with traumatic brain injury (TBI). The toolkit contains sample social media messages, graphics, a newsletter story, and additional resources to promote awareness.

Sample Social Media Messages

Please use the sample social media messages and graphics below to share TBIMS and MSKTC information and resources on your social media channels:

- Looking for #braininjury resources during March #BrainInjuryAwareness month? @TBI_MS resources are free, based on research , and developed for those who need them the most. <https://msktc.org/tbi> #MSKTC_TBI
- .@CDCinjury reports 2.9 million TBI-related #emergencydepartment visits, hospitalizations, and deaths per year in the US. Learn how @TBI_MS have contributed to research and care for people with #braininjury: <https://msktc.org/brain-injury-awareness-0> #BrainInjuryAwareness #MSKTC_TBI
- March is #BrainInjuryAwareness month! @TBI_MS centers have been advancing care and outcomes for people with #braininjury for 35 years. Find a #MSKTC_TBI center near you: <https://msktc.org/tbi/model-system-centers>
- March is #BrainInjuryAwareness Month! #DYK? The @TBI_MS National Database is the world's largest longitudinal research database for #braininjury. Learn more: <https://www.tbindsc.org/> #MSKTC_TBI

Sample Newsletter Story

March is Brain Injury Awareness Month! The [Model Systems Knowledge Translation Center](#) (MSKTC) and the Traumatic Brain Injury Model System (TBIMS) are conducting a media campaign to raise awareness of brain injury as well as the accomplishments of the TBIMS centers, the TBIMS National Database, and MSKTC's consumer resources for people living with traumatic brain injury (TBI).

According to the Centers of Disease Control and Prevention, there are 2.9 million TBI-related emergency department visits each year in the United States. For 35 years, TBI Model System researchers have been working to improve rehabilitation care and outcomes for people living with TBI. Learn more about the research and accomplishments of the TBI Model System centers [here](#). Access the free research-based resources to support people living with TBI [here](#).

To join our campaign, please feel free to use our communication toolkit [here](#).

Both the MSKTC and TBI Model System centers are funded by the National Institute on Disability, Independent Living, and Rehabilitation Research, Administration for Living, U.S. Department of Health and Human Services.

Additional Resources for Promoting Awareness

The MSKTC has developed knowledge translation (KT) tools to help researchers engage with the media and use social media. Please access our KT tools using the links below.
